Read Mode: Variation 1 - Displays current tweet being read.

I just finished my #Pioneer #AppRadio #Hackathon submission!

@handle

Top portion displays tweet while being read via TTS. Golden background indicates social radio is streaming.
Bottom indicates social network source icon (Twitter) and username (@handle) affiliated with tweet.
All options can be activated with voice command. 2-finger touch any part of screen to pause stream. 1-finger tap to skip tweet.

Buttons (Left to right): Previous Tweet, Block user, Save for later, Next Tweet

Read Mode: Variation 2 - Displays current word being read.

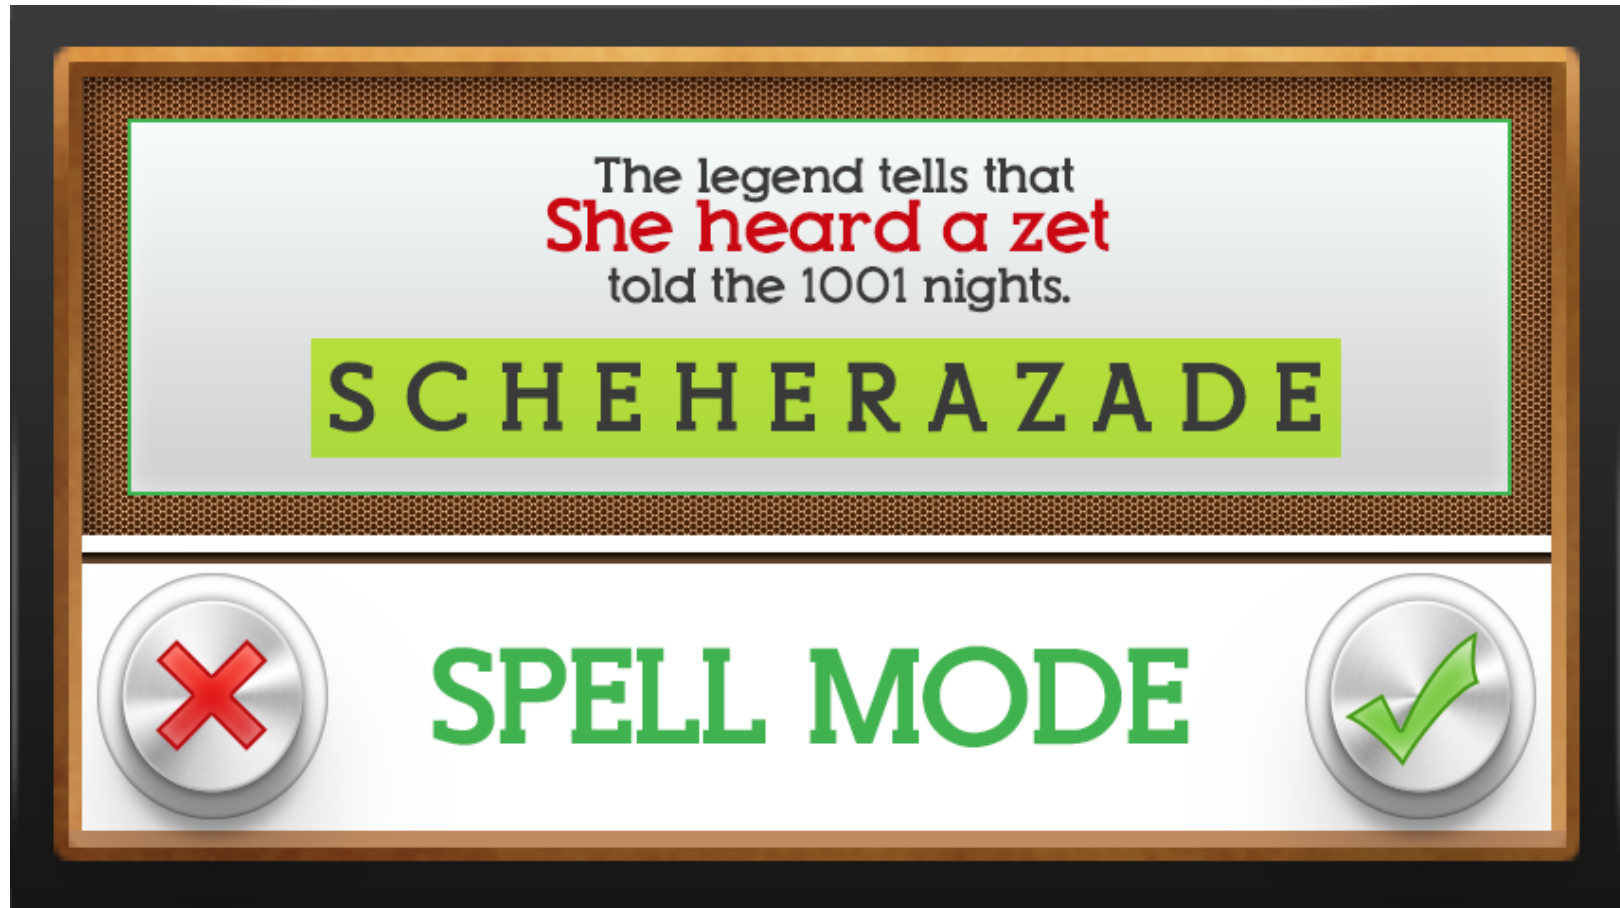

Top portion displays single word currently being TTS. Golden background indicates social radio is streaming.
Bottom indicates social network source icon (Twitter) and username (@handle) affiliated with tweet.
All options can be activated with voice command. 2-finger tap any part of screen to pause stream. 1-finger tap to skip tweet.

Buttons (Left to right): Previous Tweet, Block user, Save for later, Next Tweet

Spell Mode: Correcting the spelling of a word in a post

Top: "She heard a zet" (red) is the mis-spelled word in "The legend tells that Scheherazade told the 1001 nights." As each letter is dictated, it is added to the green-highlighted portion. **Bottom**: White background indicates post composition mode. Cancel/Confirm buttons

Voice-UI flow: 1) Say the message. 2) Review dictation to find the mis-spelled word. Cancel/Confirm options available.

3) Say "APPRADIO SPELL She-heard-a-zet" to place cursor at the word. 4) Display shows red highlighted cursor word in context of tweet. 5) Cancel/Confirm selection. 6) Begin dictation of letters: "S - C - H - E - H - E - R - A - Z - A - D - E"

Live Filter Mode - Block Tweets from User @Legends

Top: Displayed in large font - Username's handle to Omit from stream. Blue top background indicates the current social network being Twitter. **Bottom**: Soft-block twitter user to instantly filter out all tweets, red background. **Buttons**: Cancel/Confirm. **Voice-UI Flow**: 1) While stream is being read by TTS, say "APPRADIO OMIT Legends" at any time. 2) Live Filter Mode activated. 3) Touch either the cancel or confirm button to continue. Confirm will soft-block the user's tweets from being TTS in current stream. Note: this is NOT a full twitter block of the user.

Creating a stream "playlist" - (friends from multiple social networks)

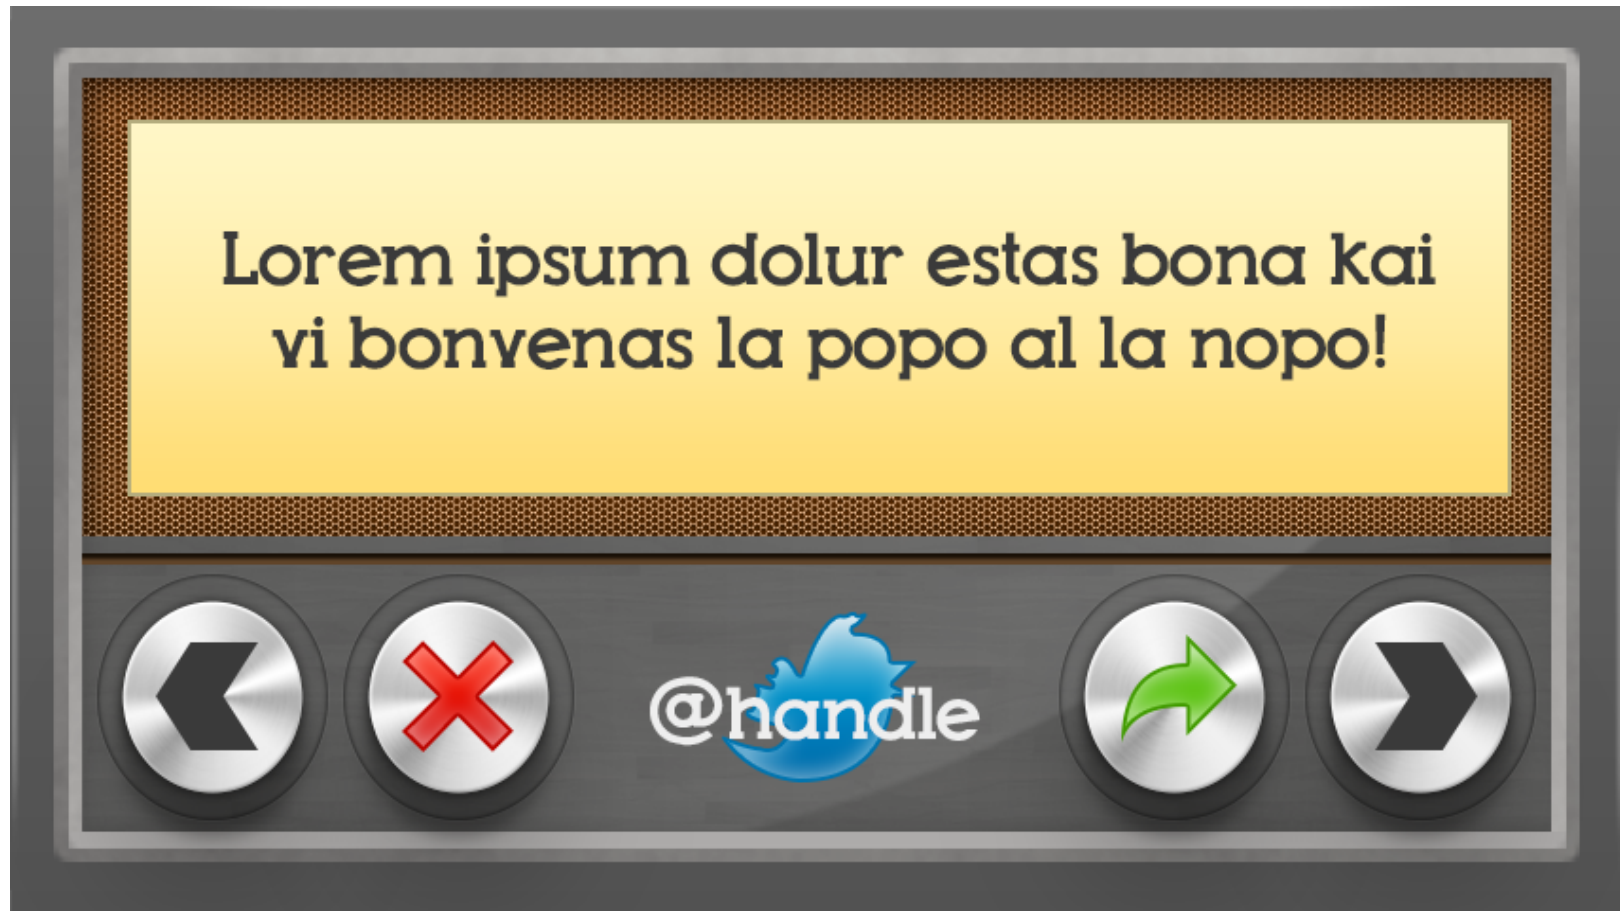

To create a stream playlist or "social stream", simply select the friends you want to listen to updates from. Touch to select
(green border appears), touch again to de-select.
Swipe up or down on the left side to scroll through your list of friends.
Buttons: Cancel Changes/Confirm Changes

A message Saved for Later

Messages saved for later review displayed prominently, with TTS stream of "offline" saved data optional. Username (@handle) of saved tweet is displayed along with icon representing social network (twitter).
Grey background indicates we are in parked mode, i.e., the radio stream is offline.
Buttons: Previous, Remove, Share (Sub-menu: retweet, email, respond @), Next
